### REMARKS

The Examiner has indicated in the Election Requirement that the application contains claims directed to patentably distinct species: species (a): Figs. 2a-2b; species (b): Fig. 3; and species (c): Fig. 4.

Applicant elects species (a): Figs. 2a-2b for prosecution at this time. The following claims encompass the elected species: 83-86, 96- 98, 100-106.

Applicant respectfully disagrees and traverses the Examiner's statement that currently no claims are generic, and points out that claim 83 and claim 96 both appear to cover all species enumerated by the examiner.

Applicants reserve all rights in the non-elected claims and/or species to file divisional and/or continuation patent applications thereon.

If the Examiner has any questions or comments as to this response, the undersigned may be contacted at the address and telephone number below.

No fees are believed to be due in connection with this submission; however, if any fees are due, please charge any fees associated with this paper to deposit account No. 50-3355.

Respectfully submitted,
